Establishment of a COMENIUS school cooperation

Dear Ladies and Gentlemen,

For a number of years our staff have recognized with great interest professional articles and transformation inputs within the education environment in our county Mecklenburg-Vorpommern, Germany and at the international level likewise.

Our special education centre helps children and teenagers with special needs up to the age of sixteen in the field of emotional and social personal development.

The special needs assessment is achieved by different level approach of support. Girls and boys may receive extra support by a qualified special needs teacher during normal school hours at regular schools. However, a time-limited attendance may become necessary for children with complex difficulties.

The best possible re-integration of the target group at school and the social and vocational level is achieved by means of change of behaviour, compensation of behavioural abnormality and improvement of child-environment framework.

Based upon our own qualitative development we have decided to initiate a vivid information exchange with similar institutes at the international level with the aim of setting up a sustainable school cooperation.

Of paramount importance to us in this context is the gained experience of our partners on development steps towards the concept of “inclusion” and further the experience gained through implementation of the “inclusion”-concept.

Such school cooperation serves as benchmarking of our own support concepts at international levels as well as a method of paving the way for further development of our own and our partner's teaching methods. It may also be a good opportunity to get known to possible Best Practice of special needs teaching.

Our staff would appreciate a school cooperation with your institute. If such a school cooperation is of interest to you please contact us by using the following e-mail address:

schule-am-wasserturm-comenius@gmx.de

We have almost finished the required application form for Comenius. It has been rated by our National agency very well. So we are looking for partner schools for our school partnership.

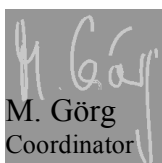

If you and your school is interested in participating, we would like to announce two appointments:

1st: If you are interested in a preparatory meeting led and carried out of our education centre in the week 16. - 20.01.2012 we need your commitment up to **11.11.2011** along with the names of the participating colleagues.

2nd: If you are interested in this project, but wants to give up the preparatory meetings for any reasons, the report, please return your commitment up to **02.12.2011** to the above named e-mail address.

Please log back in time, because we are bound to fixed dates for the submission!

Kind regards

M. Görg
Coordinator
