

SUSTAINABILITY OF PROJECT RESULTS KA1				
		Level of individual	Level of organisation	System level
	Level 0	Level 1	Level 2	Level 3
Use of results (results are new knowledge, skills, methodologies, procedures, outcomes)	Results are not in use.	The acquired knowledge, methodologies and products are used during regular work of the participant (personal level) .	The acquired knowledge is transferred and applied between staff /coworkers at the organisation . the organization offers support for the implementation (organization level).	The acquired knowledge transferred and used outside the participating organization . the organization offers support to others for the implementation (national level).
Upgrade/further development of results	Results are not upgraded.	The acquired knowledge, methodologies and products are used in a new project (ka1, ka2, etwinning, national / international project); upgrade of contents acquired within the finished project.	The acquired knowledge contributes to a change of organisation of work or principles of work at the organisation of the participant.	The knowledge is a clear and identifiable source of innovations in the national educational system .
Examples of upgrade		Through KA1 project we have found a contact and/or have been encouraged to start KA 2 or an etwinning project. Experience is a new idea for a project. Within KA 1 project we are further developing or expanding the topic of the previous project.	New programme, new subject, new study visit, establishment of an international office, a change within organisation of work.	An eTwinning ambassador cooperated within a group of experts preparing the textbook at the national level.

SUSTAINABILITY OF PROJECT RESULTS KA2				
	Level 0	Level 1	Level 2	Level 3
Use of results	Results are not in use.	Results are used by projects's partners (at least some of them).	Results are used by other organisations in partners organisations.	Results are used by organisations in non partner's countries or at the EU level.
Upgrade/further development of results	Results are not upgraded or further developed.	New ideas for activities/projects (national or EU level) arise from the project results or are based on the result (not necessary direct upgrade of the result, but there is a clear link between the result and new ideas).	Results are upgraded/further developed by the same partnership or some institutions from the partnership (it can be within a new project or within regular work of institutions involved).	Results are upgraded/further developed by other organisations. OR Results have been introduced into the national system. OR Results have been used as a base for EU guidelines or policies.
Examples of upgrade		New projects are prepared on different topics within the same partnership or new projects, which address the same issue with different focus/from other perspective.	Improvement, further development, upgrade of the results of a finalised project on local level of one, several or all partners .	Our results are upgraded/firther developed by others OR new organisations take the results and develop them further OR our solution is included into the national policy at the specific level of education.
