

Sustainability of project results (KA1)

Results are **NOT IN USE** nor upgraded into any other activity.

The acquired knowledge is used **during regular work** of the participant and/or the knowledge is used in a new activity (project).

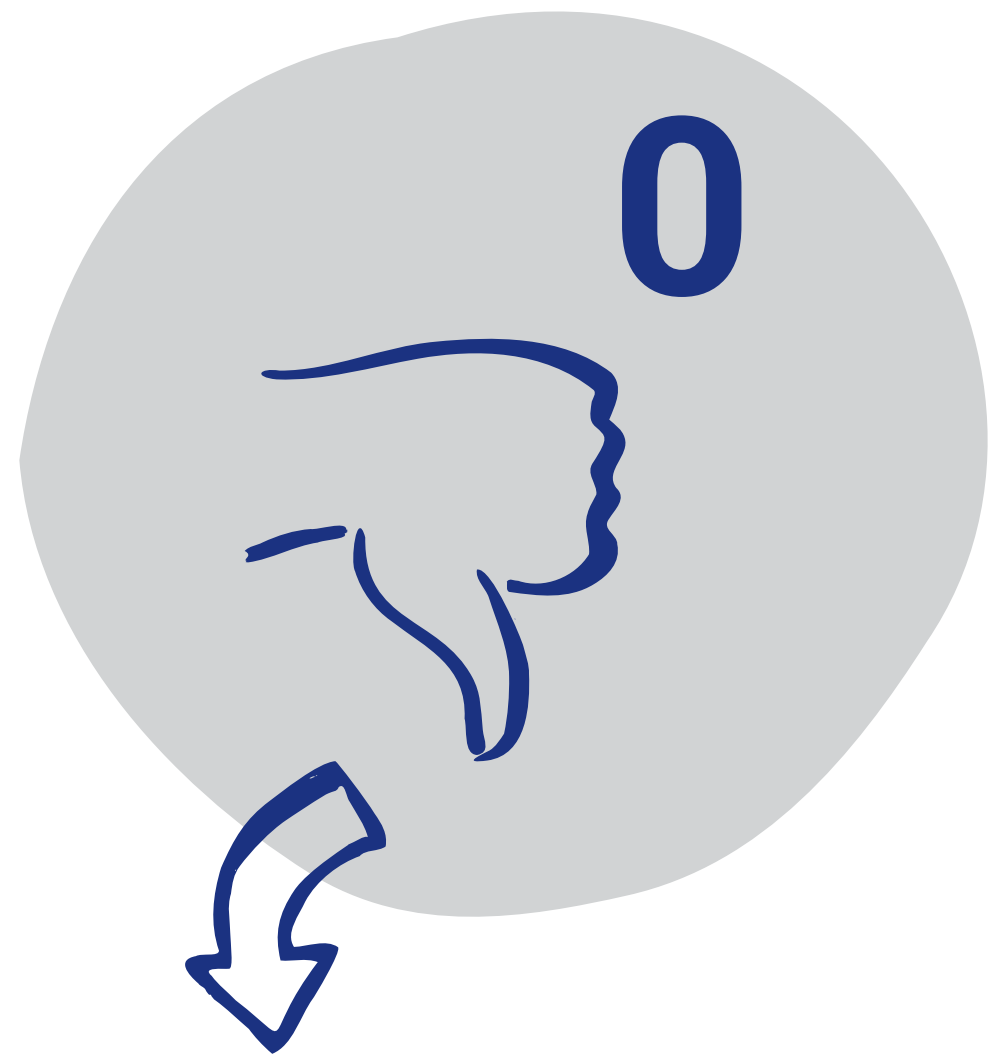

The acquired knowledge is **shared between coworkers** at the organisation and/or the acquired knowledge contributed to a change of organisation of work or principles of work at the organisation.

The acquired knowledge is transferred and used **outside the participating organization** and/or the knowledge is a clear and identifiable source of innovations in the national educational system.

Sustainability of project results (KA2)

Results are **NOT IN USE** nor upgraded or further developed.

At least some of the project partners **use the results** and/or new ideas for projects/activities arise from the results.

Results are used by **other organisations** in partner countries and/or the results are **upgraded/further developed** by the same partnership.

Results are used by **organisations in non partner countries** and/or the results have been introduced into the **national system** or used as a base for **EU guidelines**.
