TCA PROGRAMME

TCA programme:

TCA DESCRIPTION

Themes and goals:	This is a TCA focused on the value and importance of Transversal Skills and the role that Erasmus+ can play in facilitating and accelerating the development of these skills. According to business research, March - September 2020 represented the equivalent of a decade of accelerated progress in terms of digitisation and work practice. Now, post-Covid, there is broad recognition that Transversal Skills have a key role to play in helping people to navigate a rapidly changing world. It will address how to leverage the programme in support of the development of Transversal Skills. The objectives of this TCA include: - To outline the opportunities for Adult Education and Further Education and Training within Erasmus+ - To identify the priority Transversal Skills most needed in the post Covid world. - To leverage Erasmus+ via project case studies and stories to see how mobility and other projects can facilitate the development of priority Transversal Skills. - To enhance understanding of Transversal Skills – what they are; how they assist learners and participant to navigate an accelerating world. - To create opportunity for Partner Finding within the participant body
Expected results:	Outcomes It is hoped that new partnerships will be formed during the TCA and that these new partnerships will embark on preparation of mobility projects with a focus on Transversal Skills. It is also hoped that participants will be able to broaden and deepen the conversation on Transversal Skills within their own organisations.
Additional information:	Arrivals 16th of October, time TBC Full days 17th/18th of October Departures 19th time TBC in the morning
Important notes:	VET projects must include vocational skills in addition to transversal skills
