TCA DESCRIPTION

Themes and goals:	<p>TCA “Inclusive Career Guidance: Supporting Students with Emotional or Behavioural and Learning Disorders” is the fourth TCA event within LTA “Enhancing Inclusion through Guidance” which aims to explore the role of career guidance and counselling (CGC) as an inclusion mechanism. The TCA will focus specifically on career guidance needs and practices for working with students with Emotional, Behavioural or Learning Disorders (EBLD). The event invites career and educational support professionals, as well as teachers closely related to the topic, to explore innovative approaches to inclusive career development. Participants will engage in expert-led sessions, practical workshops, and collaborative discussions aimed at refining inclusive practices. Special attention will be given to adapting career guidance tools and methods to meet diverse student needs. By fostering empathy, flexibility, and interprofessional collaboration, the seminar empowers specialists to support every learner’s potential. Together, we’ll work toward a more equitable future in career education. The main goals of this thematic seminar are to: Deepen understanding of the specific needs of students with emotional, behavioural, or learning disorders in career education. Explore inclusive career guidance principles and how to apply them in diverse educational settings. Identify and evaluate effective strategies for adapting career counselling to individual student needs. Strengthen interdisciplinary collaboration between career specialists and educational support professionals. Encourage the development of innovative, student-centered approaches to inclusive career support.</p>
Expected results:	<p>By the end of the seminar, participants will: Acquire practical tools and methods for delivering inclusive career guidance. Improve ability to recognize and respond to the unique challenges faced by students with emotional, behavioural, or learning disorders. Enhance collaboration among professionals working to support diverse learners in career development. Increase capacity to adapt career education content and processes to ensure accessibility for all students. Get greater awareness of systemic approaches to inclusive career support within schools and educational institutions.</p>
